

Greta Vittori

48 years old

Was born in Milano moved to the Lake of Garda and moved again in Milano to study at University. Political Sciences. Never moved. I live in Piazza Cinque Giornate area and know the town quite well because I don't use underground or public transport, I just walk everywhere I need to go.

I work in PR in an agency with fashion and lifestyle clients, the most I love is ADIDAS we got starting from January 2018

I work in fashion but love sport.

I started running 6 years ago after the split of a 9 years old relationship.

My first marathon was in New York in 2015, than I have run Milano, Valencia, London and Edimburgh.

Next one... London in april 2019. Already bought the bip number, can't wait to run it again, because I love London and Uk in general.

I have a weekly feature about running in fashiontimes.it a web magazine very popular in Italy. Thanks to fashiontimes.it I had the possibility to interview Kathrine Switzer by email and she told me about 261 Fearless.

It's a great honor for me to represent 261 Fearless in Italy. I started my club last may in Milano.

Hope is the first one of many others to come.

I'm a good motivator and sometimes I quit my PB time during my marathons to help friends to reach the finish line.

I love running, movies, books, London, travel around the world, I think that travels enriches soul and broads the horizons.
